Education

BLDEA's College of Engineering and Technology, Vijaypur

Passed out - 2021

Mechanical Engineering

CGPA - 7.4

Skills

Programming Language - Javascript

Frontend Technologies :
 ReactJs , Redux , React Native

Backend Technologies :
NodeJs, ExpressJs,

Database : Mongodb

Relevent Technologies :
Firebase , React-router-dom,
Redux thunk, Axios, Express Validator,
Bcryptjs, JsonwebToken,
Mongoose, ReactStrap, NodeCron, etc..

Version Control : Git , Github ,
Gitlab

Tools : Postman, VsCode, Jira

Experience

Junior Software Enfgineer

IncuseHr Solutions , Bangalore

2023 July - Now

Full Stack Developer

Sharanu SB
Full Stack Developer

Passionate MERN Stack Developer with expertise in building dynamic web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript with a keen attention to detail and a commitment to continuous learning. Excited about leveraging **React Native for mobile development** to create seamless cross-platform experiences

PROJECTS

- **Project Title: TMS (Mobile Application)**
  - Building end-to-end creation of a Transport Management System **mobile app** using **React Native** for the frontend, **Firebase for PushNotifications,** Node.js for backend functionality, and MongoDB for database management.
  - Features involving warehouse management, order tracking, and delivery processes from inception to completion and **Google Directions**
  - Engineered and implemented **QR code scanning** and **signature** features for verifying delivered orders, ensuring enhanced security and accuracy in the delivery process.

- **Project Title: TMS (Web Application)**
  - This project involves comprehensive management of the entire order lifecycle, encompassing order creation, delivery logistics.
  - **Role** - Full Stack Developer for the project, overseeing the design, development, and maintenance of the entire system.
  - **Tech Stack:**
  - Frontend: **React** (with Redux for state management), **Material-UI** (MUI) for design.
  - Backend: Node.js and Express.js for developing APIs and server-side functionalities.
  - Implementing Unit Test cases for the functionlaties using **React testing library and Vitetest**

- **Portfolio - Digitalise Buisness**
  - Digitalise Business is the platform for the Soloprenures who wants to digitalise their buisness and recieve the orders through the platform.
  - Completed Full Stack Project Version 1 with Node.js, Express.js, in the backend, React for UI, **Redux for State Managment** and Future enhancements could include UI improvements.
  - Implemented secure **user authentication** using **Jwt** and password encryption with **bcrypt.js.**
  - Provided role management functionalities to control user access and security. Intigrated **Payment Gateway using Razorpay**.
  - Github Repolink - Digitise_Business

Certifications & Awards

- Certification of **Internship and Training** on MERN Stack Course Completion from DCT Academy , Bangalore (Dec 2022 - Jun 2023)
- Certification of Participation and Winner of Ganeetodipini - 2018
- Certification of Participation for Social Service activities - 2019
